Gentlemen

We are ordered by the Gov to take part in the Columbus celebration at Chicago next Oct. I have now a number of the muskets you struck up for us some 2 years ago but I am ashamed want some more I write to ask how long it would take to strike up some from the die you have of ours say 75 bores & 28 bore plated made up in the same manner as the last ones

An early answer would oblige

Yours very truly

Louis Henry Bryant

Gentlemen

Your letter & postal card came duly to hand. You omitted to give me the price for medals - say 75 Bronze 25 Gilt plated with ribbon &c just the same as the others. I have now on hand some 30 of the others & at the next meeting shall bring up the matter whether we shall want more or not & moved also to be pushed in the matter, of course we own the die & the price should be cheaper now than before -

In regards to my Battles collection I can only say that we are not ready to sell them yet the fact is that I am one of those kind that when I know & look back that

Batten collected a number when he was 18 yrs old & continued to do so during his life I dislike to put them up at auction I had rather loose the $ns & hand them down to my boy or children, my Brother is of the same way, who has an equal share in them. will say that if anything is done will let you know in time so that you may have a chance — Please let me hear from you in regards to price of Medals by next mail as we have a Co Meeting a week from Monday (Aug 29) then may be others from Waterbury & that will try & do them for us as we now have the die You understand that it is the duty the Co as for myself & Bro Good men & with parties that can be depended upon Yours truly

Gentlemen

I write to ask you about a cheap pin we can get up struck off from our die – to make it plain when we go away we have pinned some ribbon badges & pin them on with a common pin or something similar that the parties attach Now my idea would be to get some cheap pin struck up from our die out of thin metal not to cost much that we can pin on these badges with something after this style and we want you to furnish with the pin like this or like this, we will have ribbons pinned here. I think you will get my idea. We would

want at least 300 & perhaps more —

In answer to your other letter of Aug 30th would say that we have a C. meeting next Monday evening & will bring up the matter as to whether we shall want more of the medals or not. I don't think you need worry about those you have had struck up for we shall want them some of late, as for any understanding with you to have future medals struck up by you will refer you to your letter dec 12 1890 when you state "die carefully wiped and at your disposal" also stating that it would be best for you to keep it & that it would be kept free of charge — The men are all pleased with the work & if we should order more you would for the work if I have anything to do with it for I know what good

Gentlemen

You may get us up 400 of the ribbon badges according to your letter of the 7th (@ 15. per 100). In regards to the ribbon would like you to send us a sample say 2in wide by about 5½in long, a blue color not to dark or to light, for our coats are a dark blue — you could do this while the pin part is being struck up, we would like them by the last of this month.

In regards to the other medals the committee thought we had enough to last us this trip, will keep you in mind when they are ordered,

Yours very truly
Louis Henry Bryant

Gentlemen

Your letter of the 14th came duly to hand with samples of ribbon, In regards to extra charges would say that I put in your price to the officers according to your letter of the 7th & they would upon it we could have gotten the work done here much cheaper but I up held you & so it was decided — As for meaning the little sketch in my letter I do not see why they should go by that as it was only meant as an idea, you can see yourself that to make the ribbon 1" wide & 2" long the price it only would nearly cover it up & would look like nothing & then again in your letter of the 7th you said "by this must your approval give us size of ribbon, color of same, lettering,

to be placed thereon re" I cannot
see what the parties were thinking
of. Inclosed you will find
the sample selected — I should
say 5/16 long with the lettering down
so that when the pin is on it will
not cover up any of the lettering —
We do not care for any extra
work at the bottom of stone as
you suggested. See that the lettering
is spelt right + use your judg-
ment about size, would like good
plain letters, something after the
style of sample sent + arranged
same as my last letter — as for
the time to have them done if you
do not get them here till the
1st week in Oct it will do. If
there is anything you do not under-
stand let me know

Yours very truly

Gentlemen

Your postal of the 19th to hand 2⅛" will do just as well as for making the next 500 will bring it up before the committee but I do not think they will pass it for I have not brought it up to 400 from the original 300 — am glad to hear they are in the works & hope they will make as good a badge as we shall wear at Chicago. There will be millions from all over the United States & probably most of them will have something of the kind

Yours very truly
Louis Henry Bryant
